

Information Day, Friday, 28 May, 2018
LIMES, Seminar room, ground floor and foyer/terrace

LIMES Master programs of the Faculty of Mathematics and Natural Sciences

- **Biochemistry**
 - **Immunobiology: from molecules to integrative systems**
- Master program of the Medical Faculty**
- **Medical Immunosciences and Infection**

- 14:00 Prof. Waldemar Kolanus:
Introduction
- 14:10 Prof. Sven Burgdorf/Claudia Famulok:
Studying Biochemistry or Immunobiology: an overview and what you need to know
- 14:30 Dr. Cornelia Hömig-Hölzel:
Studying Medical ImmunoSciences and Infection
- 14:40 Prof. Günter Mayer:
Center of Aptamer Research and Development (CARD)
- 14:50 Prof. Irmgard Förster:
Probing gene function in vivo - a technological revolution
- 15:00 Dr. Thomas Ulas
Genomics, Epigenetics, Big Data Science and Bioinformatics: Why you should invest in these areas for your personal career
- 15:10 Dr. Marc Hübner:
Parasites, pathology and immunomodulation
- 15:20 Dr. Lino L. Teichmann:
Immunology in clinical use
- 15:30 Fachschaft Molekulare Biomedizin:
Being a LIMES student in Bonn
- 15:40 Coffee break
- 16:00 Tour through the institute in small groups
- 16:30 Sociable barbecue evening on the terrace with the opportunity for an exchange of information
